Brian:

I would like to take this opportunity to say thank you to you and your staff for all the assistance and co-operation over the many years I have had the pleasure of dealing with you all. In particular your assistance and knowledge and guidance have proven invaluable in many occurrences. Once more thank you to all.

I will have to tender my resignation from the Continuing Care Steering Committee as well as the Waterfront Development Committee at this time. It has been both a pleasure and rewarding experience having been afforded the opportunity to be on these and other Municipal Council Committees over the years, in particular our dealing concerning the construction of the BRCC.

Please pass on my thanks to the current members of Council and former members as it applies.

I trust we will still maintain communications and look forward to future dealings.

All the best

Richard Nickerson
