#### MATTERS ARISING FROM THE MINUTES

##### Building Inspector

At the June 5, 2000 meeting of the Hiring Committee, it was decided that the recommendation from the Hiring Committee be deferred until the Council meeting of June 28, 2000, so that additional information could be obtained in the interim regarding participation in the Joint Services Board, operated by the three (3) municipal units in Eastern Shelburne County.

Participation in the Joint Services Board has now been investigated and the Joint Services Board has advised of the following:

"It was the decision of both the Board and Council in consultation with the Inspection Department that our present staff workload does not permit us to take on any additional

responsibility; i.e. building inspection services for another larger municipal unit."

Discussion then took place regarding the two applicants who were interviewed for the Building Inspector position.

Moved by S. Stoddart and seconded by A. Atkinson that a letter be written to both applicants interviewed, advising them that a decision has not yet been made by the Municipal Council.

Motion carried.

Page 2, Council Meeting, June 28, 2000

Moved by S. Stoddart and seconded by W. Smith that the hiring of a building inspector be placed on the Public Works agenda for further discussion.

#### VISITOR INFORMATION CENTRE FEASIBILITY STUDY

Mr. Frank Anderson from the South West Shore Development Authority appeared before Council. He informed Council that there is funding available under the FRAM program to carry out a feasibility study on a Visitor Information Centre. He informed Council that in order to proceed with an application for funding, it is necessary to first prepare the Terms of Reference.

Moved by S. Stoddart and seconded by F. Bower that the South West Shore Development Authority, in consultation with the Municipal Clerk, prepare the Terms of Reference and present them to Council for approval.

Motion carried.

#### CAPE SABLE HISTORICAL SOCIETY

Mrs. Marjory Weeks of the Cape Sable Historical Society appeared before the meeting. She informed Council of an accident that took place in the Old Court House on May 25, 2000. There was a problem with the toilet on the second level which resulted in water leaking down through the ceiling of the office occupied by the Historical Society. Materials stored in the office were damaged by the water. The Society is not requesting compensation for damages, but instead are requesting to be notified immediately if a similar situation should occur in the future.

This accident occurred on May 25, 2000 but was not discovered by the Society until May 30, 2000. No attempt was made by the Municipal Office to inform the Society of the problem. The Society feels that if they had been notified immediately, damage would have been minimal. The Clerk informed Council that there was some confusion over who was to notify the Society and, therefore, unfortunately they were not notified.

A general discussion then took place regarding the damages suffered by the Cape Sable Historical Society in the amount of \$474.00.

Moved by F. Bower and seconded by A. Atkinson that the Municipal Insurance Company be contacted to determine whether this type of a situation is covered through the Municipal Insurance. If so, then a claim be made to reimburse the Cape Sable Historical Society.

Motion carried.

## CORRESPONDENCE

### Future of Shelburne Harbour

On June 14, 2000, a letter was written to the Honourable David Collenette expressing Council's support of the letter written by the Municipality of Shelburne expressing concern regarding Shelburne Harbour. A response has now been received from the office of the Minister of Transport which advised that Transport Canada is currently in the fifth year of a six year port divestiture program that aims to transfer regional/local public ports to other federal departments, provincial governments or to community and local groups. The department's objectives are quite similar to those of Fisheries and Oceans Canada in this respect.

The letter further advised that it appears that traffic and revenues are increasing significantly at the wharf and there is no doubt that there will be significant economic development opportunities in the coming years if the facility is managed properly and by local officials.

### Rural Mailboxes

The Clerk advised that a response has now been received from Canada Post regarding the delivery of mail to rural route mailboxes located in Smithsville and Newellton areas. The letter advised that as a Crown Corporation they must be mindful of their expenses. It would be additional costs to serve individual rural mailboxes. It is, as well, more efficient to serve customers in group mailboxes which have the added feature of secured mail in that locks to individual boxes are used.

Moved by F. Bower and seconded by A. Atkinson that Canada Post be requested to include in their next contract house-to-house delivery of mail in rural mailboxes in the Smithsville and Newellton areas.

Motion carried.

### Fisheries Resolution

The Clerk reported that two (2) responses have been received regarding our resolution dealing with the regulation of the fishery in South Western Nova Scotia. One response was received from MP Gerald Keddy and the other response was received from the Town of Yarmouth, both in support of the resolution.

### Fisheries Centre

The Clerk reported that a letter has been received from the Municipality of Shelburne advising that the Municipal Council unanimously supports the efforts of the Municipality of Barrington to have a Fisheries Training School developed and located in western Shelburne County.

#### Rural Roads

The Clerk reported that a letter has now been received from the Office of the Minister of Transport, in response to our letter dated April 18, 2000, regarding the condition of rural roads in Nova Scotia. The letter advised that the Federal Government continues to work in partnership with the provinces and territories to improve Canada's highways. Together, they identify those parts of the National Highway System which, because of growing traffic and increasing trade, need immediate attention.

Page 4, Council Meeting, June 28, 2000

The new infrastructure program will therefore include both municipal and strategic highway infrastructure. The highway component of the program will foster innovative techniques and multiple partnerships that will increase the efficiency and safety of the National Transportation System as well as enhance its sustainability and reliability.

Moved by S. Stoddart and seconded by E. Nickerson that a letter be written to the Premier asking whether the province will be a funding partner in the new infrastructure program, and if so, at what level.

Motion carried.

#### Privatization of Nova Scotia Liquor Commission

Councillor Steven Stoddart declared conflict of interest, vacated his seat and proceeded to the spectator area.

The Clerk advised that a copy of a letter had been received from the Municipality of Shelburne which was addressed to the South West Regional School Board regarding school library services. The Municipality of Shelburne is concerned that the school library services in Shelburne County are being jeopardized by the School Board's equity plan for school library

staffing. The Municipality of Shelburne does not wish to see library service to any of our schools either reduced or eliminated.

Moved by E. Nickerson and seconded by W. Smith that the Municipal Council support the letter received from the Municipality of Shelburne regarding school library services in Shelburne County.
