RECEIVED
NOV 29 2019

Dear Council:

The Roseway Hospital Charitable Foundation is working with the Nova Scotia Health Authority to replace our current 20 year old analog x-ray machine. The existing unit is under a service contract, however it is getting increasingly harder to source parts.

A new digital x-ray unit, which has a clearer sharper image and is the newest technology, costs approximately \$656,000 which includes renovations and upgrades to the building. The Roseway Hospital Charitable Foundation is seeking to fund 25% of the total cost which amounts to approximately \$164,000.

We are asking for your support and hope that the Municipality of Barrington can help fund the project in the amount of \$62,000. Please include this request in your next budget considerations and advise us of your funding decision by March 31, 2020.

Similar requests based on population and citizen usage are being suggested to neighbouring municipal units as indicated below:

Municipality of Shelburne	\$ 53, 000
Town of Clark's Harbour	\$ 7, 000
Town of Shelburne	\$ 17, 000
Town of Lockeport	\$ 5, 000
Roseway Hospital Charitable Foundation	\$ 20, 000

Sincerely,

Robert Legere
Chair
