

Council,

As a follow-up to our conversation about the Municipal Education Tax Rate, please find below some information on how it came to be and why we do not have an agreement in place. I still do have questions on the history of it and how the actual rate is calculated (the \$0.3048) so I have followed up with Marilynn on that and will share any additional information I receive with you.

There was also a question on how much we've spent on Education in the past history. We went as far back as 12 years ago since that will give you a pretty good sense picture.

March 31, 2010	\$ 1,155,252
March 31, 2011	\$ 1,143,298
March 31, 2012	\$ 1,163,532
March 31, 2013	\$ 1,211,508
March 31, 2014	\$ 1,246,920
March 31, 2015	\$ 1,261,440
March 31, 2016	\$ 1,273,593
March 31, 2017	\$ 1,298,728
March 31, 2018	\$ 1,279,703
March 31, 2019	\$ 1,304,553
March 31, 2020	\$ 1,331,464
March 31, 2021	\$ 1,360,123
Total	\$ 15,010,114

Let me know if you have any other questions or comments. If you would like to pursue this questioning further or suggest a change, I would recommend going at it with other municipal units as it is not something we will likely get very far with individually.

Thanks,

Chris Frotten
