**Subject:** Fw: Barrington Trail

Attached are photos of the condition of the Barrington Bay Trail. This has been an ongoing problem since the ATV group took over the trail. It is my understanding that the Municipality provides funds for the upkeep of the trail which is apparent is not happening. The recreation dept goes to great length to promote physical activity but at the same time discourages the use of one of the best resources we have. The ATV group have proven over the years that they are not capable of looking after the routine upkeep of this trail. I would suggest to council that the Municipality take over the upkeep of the trail so that this resource can once again be better utilized.
