Jody Crook
Municipality of the District of Barrington
PO Box 100
Barrington, NS B0W 1E0

Dear Jody Crook,

I am writing to request permission to extract material from the gravel pit located at Goose Lake for the purpose of developing a new racetrack in our community. I have previously been in contact with Cameron Whiteway and he approves of the use of the pit, but advised me to also bring this forward to the council as well. This project aims to provide a safe and regulated environment for motorsport enthusiasts and promote local tourism.

The proposed racetrack will be situated at 763 Highway 103, and we have conducted preliminary assessments to ensure that the extraction process will be environmentally sustainable and compliant with all relevant regulations.

We believe this project will bring significant benefits to our community, including:

1. **Economic Growth:** The racetrack will attract visitors and events and boost local businesses.
2. **Community Engagement:** The facility will offer a safe venue for motorsport activities, reducing illegal street racing and enhancing community safety.
3. **Environmental Responsibility:** We will implement best practices in environmental management during and after the extraction process.

We kindly request a meeting with the council to discuss this proposal in detail and address any concerns you may have. We are prepared to comply with any conditions set forth by the council.

Thank you for considering our request. We look forward to your positive response and the opportunity to contribute to the development of our community.

Sincerely,

Albert Langthorne
President
Mile High Offroad Racing Association
