### SUSTAINABLE PRINCIPLES

A list of sustainable design principles was circulated to members by the Sustainability Planner. These principles were then reviewed individually by the Planner with some discussion from members.

It was the consensus of members that these principles be adopted noting that the word “in-filling” has different connotations for the Department of Environment, and also noting that there needs to be some additional emphasis placed on the balance between economic and environmental sustainability.

### COMMUNITY VALUES AND ASSETS

The Sustainability Planner then reviewed a memo to members regarding the expiration of community values and assets which included several questions to be answered by members.

A discussion followed regarding the reasons why members have chosen to live in this community. The Sustainability Planner also indicated that public consultation workshops will begin during the month of May and will be sponsored by the Planning Advisory Committee and be led by the Sustainability Planner.

### ADJOURNMENT

The meeting was adjourned by mutual consent of members at 8:37 p.m.
